Contents Volume 79

Vol. 79, No. 1

Filling a gap in traditional transaction cost economics: Towards transaction benefits-based analysis
K. Blomqvist, K. Kyläheiko and V.M. Virolainen 1

A cost model of industrial maintenance for profitability analysis and benchmarking
K. Komonen 15

The role of cost management in network relationships
H.I. Kulmala, J. Paranko and E. Uusi-Rauva 33

A cost and operations based product heterogeneity index
C. Ocampo y Vilas and N. Vandaele 45

The effects of customization on spare part business: A case study in the metal industry
P. Suomala, M. Sievänen and J. Paranko 57

On the non-optimality of the average cost approach for inventory models with remanufacturing
R. Teunter and E. van der Laan 67

Activity-based costing and process modeling for cost-conscious product design: A case study in a manufacturing company
K. Tornberg, M. Jämsen and J. Paranko 75

Diary of Events 83

Vol. 79, No. 2

Economic design of control chart for trended processes
D.Q. Cai, M. Xie, T.N. Goh and X.Y. Tang 85

Process optimization via neural network metamodeling
M. Chambers and C.A. Mount-Campbell 93

A fuzzy multiple objective programming approach for the selection of a flexible manufacturing system
E.E. Karsak and O. Kuzgunkaya 101

Real-time dynamic shop floor scheduling using Evolutionary Algorithms
J. Käschel, T. Teich and B. Zacher 113

A continuous time inventory model for a product recovery system with multiple options
R. Kleber, S. Minner and G. Kiesmüller 121

PII: S0925-5273(02)00339-0

MAIC: A data and knowledge-based system for supporting the maintenance of chemical plant
G. Pieri, M.R. Klein and M. Milanese 143

Diary of Events 161

Vol. 79. No. 3

Scheduling jobs with values exponentially deteriorating over time
T.G. Voutsinas and C.P. Pappis 163

The development of gradual-priority weighting approach for the multi-objective flowshop scheduling problem
P.-C. Chang, J.-C. Hsieh and S.-G. Lin 171

A branch and bound algorithm to minimize the total flow time for *m*-machine permutation flowshop problems
C.-S. Chung, J. Flynn and O. Kirca 185

A comprehensive bibliography on justification of advanced manufacturing systems
F. Raafat 197

Effects of finite repair capacity in multi-echelon, multi-indenture service part supply systems
A. Sleptchenko, M.C. van der Heijden and A. van Harten 209

New product warranty: A literature review
D.N.P. Murthy and I. Djamaludin 231

Capacity utilisation and profitability: A decomposition of short-run profit efficiency
T. Coelli, E. Grifell-Tatjé and S. Perelman 261

The impact of management accounting, product structure, product mix algorithm, and planning horizon on manufacturing performance
B.-R. Lea and L.D. Fredendall 279

Erratum 301

A comparison of different methods for estimating the average inventory level in a (*Q*, *R*) system with backorders
A.H.-L. Lau and H.-S. Lau 303

Diary of Events 317
